Job Title: Web Developer Intern

Location: Remote

Duration: 2 Months starting July 2024

Stipend: 10,000 INR/month

About Us:

[BioQuix](#) is an AI powered biotech startup; we are dedicated to revolutionizing the healthcare landscape with cutting-edge research and products. Our mission is to improve lives through genetics and data science, and we're on a quest to make our online presence as impactful as our discoveries.

Responsibilities:

- Assist in designing and developing a dynamic website

- Implement user-friendly interfaces and responsive designs

- Implement blog backend

- Select and apply color palettes and typography

- Ensure website functionality and performance

Requirements:

- Passion for web development and design

- Basic knowledge of HTML, CSS, and JavaScript

- Creative mindset with attention to detail

- Ability to work independently and remotely

- Strong communication skills

- Must provide a link to a website you have built

- If you have GitHub code, ensure it is hosted before submission

Benefits:

- Gain real-world experience in web development

- Flexible working hours

- Mentorship and guidance from experienced professionals

How to Apply:

Send your resume, a brief cover letter explaining your interest in the role, and links to your previous work to career@bioquix.com with the subject "Web Developer Internship".
